

SUMMER SCHOOL ON INFORMATICS EDUCATION RESEARCH

Gain expert insights and strategies
in Informatics teaching and learning.

Master theories, methodologies
and practical approaches to
Informatics Education Research.

Join us in expanding and growing
Europe's leading community of
Informatics Education researchers!

Europe's
first &
ONLY!

SCHIER COHORTS

What SCHIER Participants Say

"The program was super helpful and valuable, blending its subject-specific focus and education-related theories and methodologies in a way that allowed me to look at my research topic in fundamentally new ways and through the critical eye of Informatics Education researchers."

Lixin Li

University of Glasgow (UK)

"A very good opportunity for Informatics Education researchers in Europe: you learn a lot about fields you may be unfamiliar with and meet people who can offer you insightful advice, comments on your work, and new perspectives for the future!"

Guillaume Steveny

UCLouvain (Belgium)

"It offers a deep dive into the subject with expert instructors, hands-on activities, and the opportunity to network with like-minded professionals, making it an incredibly valuable learning experience."

Drishti Yadav

TU Wien (Austria)

Recommend to PhD Students and Colleagues, to strengthen Informatics Education Research Community in Europe!
