Helping PhD students have a good experience despite the pandemic

**Finding TIME**

- Prioritising those activities that energise

**Keep the space**

- Keeping the important learnings alive and not forgetting about them
- How to implement coaching mindset also in teaching

We miss the coffee sessions

- Putting out new fires every week

- Connect to (new) colleagues when working from home

- Balancing giving someone (new PhD student) space to grow and not overwhelming them
- We miss the coffee sessions

Time to keep the space!
