How do we define “intelligence” in AI?

Although the terms tend to be confused, **intelligence** does not necessarily imply **consciousness** and, therefore, it does not necessarily imply **Ethics**.

"You're identified, through the Compas assessment, as an individual who is a high risk to the community."

Example 4: Lethal Autonomous Weapon Systems

“Once developed, they will permit armed conflict to be fought at a scale greater than ever, and at timescales faster than humans can comprehend. These can be weapons of terror, weapons that despots and terrorists use against innocent populations, and weapons hacked to behave in undesirable ways. We do not have long to act. Once this Pandora’s box is opened, it will be hard to close...”
