

Computer Science Education In Defence of Programming

KING'S
College
LONDON

Michael Kölling, King's College London
European Computer Science Summit 2017, Lisbon, Portugal

So, let's talk about
programming!

Motivation

Greenfoot

Eight ways to motivate students

Use open problems

Allow students to take control.
Creativity.

Asteroids

Projects of discovery

Surprises are good.

Experiment.

Ants

Do something that actually requires a computer!

Discoveries of

Surprises

Experiments

god.

Connect to their interests

What are their interests?

Let them choose

Real world connections

Pollution.

Health / fitness.

Global warming.

Traffic simulations.

Social interactions.

...

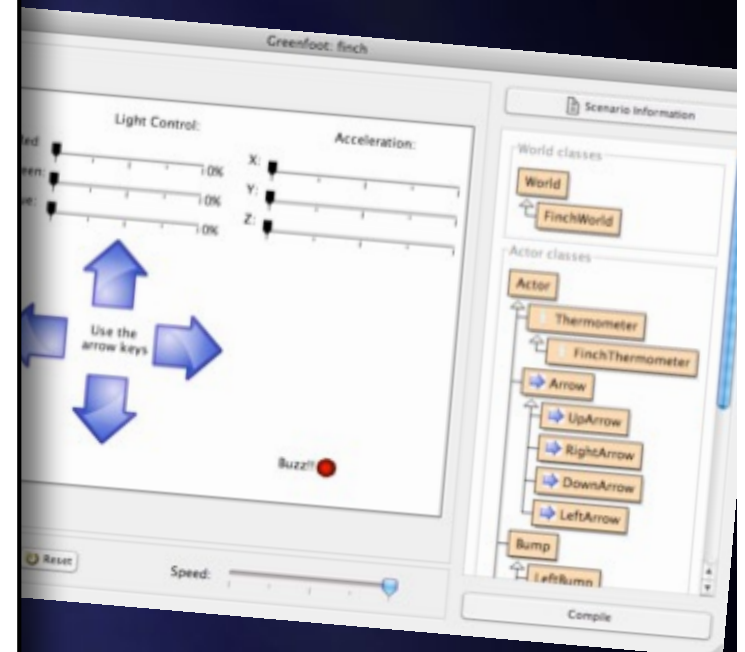

Use real data

Weather

Multi-level learning

Wave

Gadgets
are cool

Share!
