

CENTER FOR HIGH PERFORMANCE COMPUTING

Infrastructure for computational research
variety of scientific domains: mathematics, computer science, physics,
chemistry, biology, geography, business/economics

High Performance Computing: IBM NextScale
(Performance: Rmax 40 Tflops; 68 nodes Nx360 M5 computing nodes)

Cloud computing: IBM Flex System
(10 virtualization servers IBM Flex System x240)

HPC account: submit via e-mail to hpc@cs.ubbcluj.ro
