The World’s Cleanest Air & Greenest Country

With 70% of Estonia covered by forests and bogs, and over 2,000 islands to explore, the options for authentic, nature-based group activities are endless. According to the 2024 Environmental Performance Index, Estonia ranks as the most environmentally friendly country in the world, and one of only seven to meet WHO’s clean air standards.

Europe’s Best-Preserved Medieval Old Town

Tallinn’s picture-perfect Old Town is one of Europe’s best-preserved medieval city centres. A UNESCO World Heritage site, it’s a fairytale mix of cobblestone streets, Gothic spires, hidden courtyards, and Hanseatic charm.

Europe’s Best Education

Estonian students consistently rank at the top in Europe in global education assessments. According to the latest PISA tests, Estonia is first in Europe, and among the highest performers worldwide.

The World’s Leading Startup Nation

Often dubbed the Silicon Valley of Europe, Estonia boasts the highest number of start-ups and unicorns per capita on the continent. This compact country punches far above its weight when it comes to innovation, with global success stories like Skype, Wise, and Bolt all having Estonian roots.
